COMMUNICATION RE: EXHIBITSSUBMITTED IN THE INFORMATION DISCLOSURE STATEMENT

Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Dear Sir:

Applicants have herewith submitted an Information Disclosure Statement and Form 1449 including Exhibits A-D. The following is an explanation of the contents of the Exhibits submitted for the Examiner's consideration.

Exhibits A-C are installation and assembly drawings of a prior art ADC Telecommunication, Inc. Pro Patch product. The Pro Patch product includes a chassis (Exhibit C) mounted in a frame (Exhibit B). Jacks are mounted within the chassis. The Pro Patch product also includes a front panel covered by a removeable designation strip (Exhibit A). A plurality of contacts is located behind the designation strip. The contacts are electrically connected with clips. By positioning the clips at selected positions between the contacts, the circuitry of the jacks can be changed between a no-normal, half-normal and full-normal configuration.

Exhibit D includes photos of a product offered for sale by Switchcraft, Inc. The product includes a module having two jacks (pages 1-2 and 9-10). The module also has a switch device including a rotary member (pages 3-8) configured to change the jack circuitry between a no normal, full normal, and half normal configuration. The jack circuitry can be changed by turning the rotary member of the switch device. To Applicants' knowledge and belief, this product was first publicly disclosed at a tradeshow on April 23-26, 2001. The first public disclosure of April 23, 2001 is after the filing date of the present application, April 6, 2001. Applicants therefore believe that the disclosure of Exhibit D is not prior art under 35 U.S.C. §102.

The Examiner is invited to contact Applicant's representative at 612.371.5340 if any further questions or concerns arise.
